Write down 20 potential goals:

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

9. _____

10. _____

11. _____

12. _____

13. _____

14. _____

15. _____

16. _____

17. _____

18. _____

19. _____

20. _____

And now choose up to 5 to focus on and cross out the rest.

the 1990s, the number of people who have been employed in the public sector has increased in all countries. The increase has been particularly large in the United Kingdom, where the public sector has grown from 12.5% of the economy in 1980 to 20.5% in 1998. This has led to a significant increase in the number of public sector employees, from 1.5 million in 1980 to 3.5 million in 1998.

The increase in public sector employment has been driven by a number of factors. One of the main reasons is the growth of the welfare state. In the 1990s, there was a significant increase in the number of people who were entitled to state benefits, such as unemployment benefits, sick pay, and pension benefits. This led to a significant increase in the number of people who were employed in the public sector, as the state had to provide these benefits.

Another reason for the increase in public sector employment was the growth of the public sector itself. In the 1990s, there was a significant increase in the number of public sector employees, as the state provided more services. This was particularly true in the areas of health care, education, and social services. The growth of the public sector was also driven by the need to provide services to an aging population.

The increase in public sector employment has had a number of implications. One of the main implications is the increase in the size of the public sector. This has led to a significant increase in the number of public sector employees, which has in turn led to a significant increase in the cost of the public sector. This has led to a significant increase in the size of the public sector, which has in turn led to a significant increase in the cost of the public sector.

The increase in public sector employment has also led to a significant increase in the number of public sector employees. This has led to a significant increase in the number of public sector employees, which has in turn led to a significant increase in the cost of the public sector. This has led to a significant increase in the size of the public sector, which has in turn led to a significant increase in the cost of the public sector.

The increase in public sector employment has also led to a significant increase in the number of public sector employees. This has led to a significant increase in the number of public sector employees, which has in turn led to a significant increase in the cost of the public sector. This has led to a significant increase in the size of the public sector, which has in turn led to a significant increase in the cost of the public sector.

The increase in public sector employment has also led to a significant increase in the number of public sector employees. This has led to a significant increase in the number of public sector employees, which has in turn led to a significant increase in the cost of the public sector. This has led to a significant increase in the size of the public sector, which has in turn led to a significant increase in the cost of the public sector.

The increase in public sector employment has also led to a significant increase in the number of public sector employees. This has led to a significant increase in the number of public sector employees, which has in turn led to a significant increase in the cost of the public sector. This has led to a significant increase in the size of the public sector, which has in turn led to a significant increase in the cost of the public sector.

The increase in public sector employment has also led to a significant increase in the number of public sector employees. This has led to a significant increase in the number of public sector employees, which has in turn led to a significant increase in the cost of the public sector. This has led to a significant increase in the size of the public sector, which has in turn led to a significant increase in the cost of the public sector.
